About me

Creative and detail-oriented Software Engineer with over **5 years of experience** building responsive web applications and dynamic backend services.

Passionate about **clean code**, **user-first design**, and **scalable solutions**. I thrive in fast-paced environments and love collaborating across teams to bring ideas to life.

Technical skills

🔗 Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)
- TypeScript
- React
- Vue.js

🔗 Backend Development

- Node.js
- Express.js
- Python
- PHP
- Django
- FastAPI
- REST
- GraphQL

🗄️ Databases

- MySQL
- SQLite
- MongoDB
- Redis
- PostgreSQL
- Sequelize
- TypeORM
- Database design
- Normalization

🔗 DevOps & Cloud

- GitLab CI/CD
- AWS
- EC2
- Lambda
- S3
- CloudWatch
- Nginx
- Bash

🔗 Tools

- Git
- Docker
- Figma
- Jira
- Typst

Languages

- 🇬🇧 English
- 🇫🇷 French

Experience

Senior Full Stack Developer @ Web World Digital

2021 — Current

Part of the Core Web Applications team, leading development efforts on a customer-facing SaaS platform and collaborating closely with UI/UX designers.

- 🔗 Led migration of legacy Angular frontend to modern React stack.
- α Architected scalable REST API used by over **150K monthly active users**.
- 🔗 Mentored junior developers and introduced weekly code review practices.

Web Developer @ Ultimate Tech Solutions

2018 — 2021

Joined a startup building HIPAA-compliant medical scheduling software.

- 🔗 Wrote Python scripts to automate test coverage reports and API contract checks.
- d Built UI components using React and Redux, including calendar widgets and modals.
- 🔗 Gained exposure to secure coding practices and healthcare data privacy standards.

Software Engineering Intern @ Mad Tech

2017

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.

Achievements

Awards

- 🔗 **Winner of Crazy Hackathon (2023)**: built a smart application to form campus study groups based on subject, schedule and location.
- 🔗 **OpenAI Hackathon finalist (2022)**: team project using AI for real-time code documentation generation. Helped a nonprofit increase organic traffic by 180% via Next.js SSR tweaks.

Projects

- 🔗 **MyMealz**: a React Native app to plan, share and rate meals (**10K+ downloads**).
- 🔗 **AI-Powered Portfolio Analyzer**: built a tool using GPT-4 API to give feedback on resumes.

Contributions

- 🔗 Regular contributor to `react-hook-form` and `is-even` on GitHub.
- 📄 Submitted over 40 PRs across 10+ public repositories.

Education

2018 Hope's Peak Academy

Paris, France

- 🔗 **B.S. in Computer Science (GPA 4.0)**
 - 🔗 Relevant courses: Data Structures, Algorithms, Web Application Development, Computer Networks, Operating Systems, Databases & Information Systems
 - o Activities: Coding Club (President), Ice Skating, Teaching Assistant

2022 Certificate in Cloud Architecture

Google Cloud Professional Track
